Back on Three Rivers tonight, and even at 12 volts, these little cars were rockets. My BRP on Black seemed pretty consistent with its 20k inline motor, Allan's BRM with its 25k motor could pull a better fast lap. Pocket rocket of the night was John Rees's Brabham on green even giving me 7 second laps. My 20k powered Lotus BRM was a little twitchy but again no slouch. John's Lotus on Yellow lane was too hot to handle for most. I had to turn everything to zero and brakes up to cross the line and enter first corner safely. Great running all these cars and very competitive for all racers. Offs lost many a good first place.
